

TRACE Rosetta Stone v7 FULL - PDF companion

Status: current Rosetta after infrastructure + energy patch. Not validation.

Not proof.

v7 preserves v6 and adds Rosetta surfaces for infrastructure and energy.

infrastructure := material\_form + operating\_method + record + maintenance +  
safety\_default + authority\_map + hidden\_basement + future\_space\_effect

energy := capacity\_to\_change\_state

ethical\_energy := capacity\_to\_change\_state while preserving correction +  
repair + exit + future\_space + non\_hidden\_cost

Mandelbrot is bounded as analogy only: not proof, not operator, not  
metaphysics.

Free will remains candidate annex: operational boundary only, not active  
spine.
